Partcode: ILFLD090 / Page: 1

Shine powerful light exactly where you need it with the Precision Pro Industrial Floodlight. These super-tough, super-efficient floodlights utilise up to sixteen banks of LEDs, with skilfully engineered lenses that individually focus each LED, allowing some models to project asymmetrical beam angles that evenly illuminate a specific area. This makes them ideal for professional applications such as smaller scale sporting venues, car parks and walkways around retail or industrial estates.
